

September Song

## Dears Crossing

## School Zones Offer Special Traffic Problems -- Watch It!

"September Song" brings in the happy cry of young children, eagerly winding their way back to the little red schoolhouse. There they soak up beautiful knowledge. They'd much rather be there than outside romping and playing (Uuuuggggghhhh!) in this beautiful Fall weather.

We as adults can safeguard their goings and comings, however. Many Y-12ers must go through school zones on their way to work.

Remember a few of these facts:

**15 MILE ZONE:** A school zone has a speed limit of 15 miles an hour. It means just that. Only at that speed could you brake quick enough to stop in time.

**SCHOOL BUSES:** When a school bus stops, you must stop behind it. Don't go around it when it is in a parked position. Also, if you meet a parked one, the law requires you to stop also. In meeting or following a school bus, when it stops, **YOU STOP TOO!**

**CHILDREN ARE UNPREDICTABLE:** They may be walking alongside the street, and suddenly decide to cross the street right in front of you. Anticipate their moves as you approach them. Have the brake foot ready.

**DON'T HURRY** through the school zone. Remember, the 15 mile an hour speed limit . . . and

think while you are going only 15 miles an hour. A vehicle moving at that rate of speed can still kill.

**TREAT CHILDREN . . .** all children as they were your own. Make sure they get safely to school, if they are on their way while you come to work.

With school in session again, let's remember to drive just a little more carefully . . . with a little more awareness than usual. Our future is on those streets . . . pig-tails, freckles, giggles and all.

Let's don't destroy them with carelessness.

## Instrument Society Meeting Is Tonight

The Oak Ridge Section of the Instrument Society of America opens its 1964-65 series with a meeting tonight. The ISA meeting is set at the Green Room of the Ridge Recreation Hall, at 8 p.m.

Speaker for the initial meeting will be James W. Krebs, Midwest Regional Manager of the Datex Corporation. Krebs is an honor graduate of the Case Institute, with a BSME he received in 1948. He also spent a year at Illinois Tech during World War II. He has been an ISA member since 1952.

His subject will be "A Tool for Automation and Data Processing."

Krebs has been with the Gilmore Industries, Cleveland, Ohio, where he worked in strain gauge and load cell instrumentation systems. He also worked previously with the Swartout Company, Cleveland.

All ISA members and interested parties are urged to attend the opening meeting of the new season.

## Harmless Nitrogen Can Be DEADLY . . . Watch It!

Harmless nitrogen can be DEADLY!

Because it is normally very harmless and due to the fact that it makes up 79 per cent of the very air we breathe, nitrogen is described as a tasteless, odorless, colorless, very inert gas which does not burn or support combustion and which is non-poisonous.

Enclosed spaces are often purged with nitrogen. Never release nitrogen into a room without adequate ventilation. You can easily "drown" in it.

## Technical Organizations Offer Employee Up-To-Date Material

There's a technical society for practically every letter in the alphabet, and they are the necessary tools of all our trades. Many of these business and technical societies begin activities within the next week or so. These meetings keep members abreast of current events in their particular field. They serve as the ABC's of professions.

The Bulletin is always glad to print notices of meetings, special events, elections of officers, or what-have-you of any bona fide professional group. (The paper itself is a member of the Appalachian Industrial Editors' Association, which is affiliated with the American Association of Industrial Editors.)

Typical of some of the professional activities planned for the winter are three listed below . . . Society for Nondestructive Testing, a live-wire group with dynamic representation in the plant . . . the Instrument Society of America . . . and the American Society of Tool and Manufacturing Engineers.

Since circumstances oft prevent many of us from furthering our formal education, these organizations fill vacuums in our business that would otherwise go wanting. They are, more or less, the 'graduate schools' that at least keep us posted a little more than we otherwise would be.

The sharing of information and mutual problems of others in similar fields is a valuable aid to on-the-job education.

## SNT Meeting Set For Next Tuesday

The Oak Ridge Section of the Society for Nondestructive Testing will hold its first meeting of the 64-65 year next Tuesday, September 8. They plan a country fried steak dinner at the Holiday Inn, Oak Ridge, beginning at 6:30 p.m. The cost is \$1.50, and SNT members say this is the same meal that would have cost \$2.50 last year.

Do you know . . . for instance that in the near future you or a technician or technical man may have to be tested and certified as to your qualifications in the NDT field?

That SNT has a speaker coming from Denver, Colorado to talk on "The Present Status of the Qualification of NDT Personnel?"

That the speaker is Mr. Carl B. Shaw of the Sterns-Roger Corporation. His discussion will include a short historical reference and precedents for qualification and certification of personnel? The need for the qualification of NDT personnel will be explored and the arguments for and against will be given. What has been accomplished by the national SNT Task Force, what has been done to date by the new division, work to be done, and a closing summer finish the night's discussion.

Local SNT members and interested parties are welcomed at next week's dinner meeting. That's Tuesday, September 8, at the Holiday Inn.

## Reavis To Address ASTME Tomorrow

Dinner Meeting Is Set At Waldorf

J. Pat Reavis

The Knoxville-Oak Ridge Section of the American Society of Tool and Manufacturing Engineers will meet tomorrow, Thursday, September 3. The season's opening meet will be held at the Waldorf Restaurant, Clinton Highway.

Featured speaker will be J. Pat Reavis, Statistical Services Supervisor in Y-12. Reavis will speak on "What Management Should Expect from Quality Control." A graduate of the University of Tennessee, he holds a BS and MS Degree in Statistics. Active in the Tennessee Section of the American Society for Quality Control, he is also a lecturer for UT, and is past secretary and treasurer of the ASQC.

Reavis came to Y-12 March 18, 1957, and resides at 5712 Melstone Drive, Knoxville. He is married to the former Elizabeth Ann Cox. They have two daughters, Patty and Cindy.

The Waldorf Restaurant is located across Clinton Highway from the Knox Motel.

Thursday's dinner meeting is slated for 7 p.m., with the technical session to get underway at 8.

**FOR LUNCHES, FOR THE FREEZER, FOR FOOD** of any kind . . . there's nothing like Glad products, Union Carbide's new "cling" material. There are the Glad Bags, large size; Glad Bags, sandwich size . . . and Glad Wrap in 100 foot rolls. The bag-type holders are self-sealing.

## SAFETY SCOREBOARD

The Y-12 Plant Has  
Operated  
38 Days Or  
1,210,000 Man-Hours  
(Unofficial Estimate)  
Without A Disabling  
Injury

Through August 30

Phone 7755

For Daily Report  
On Accident-Free Hours

## Physics Theoretical Seminar Set Tomorrow

Oak Ridge National Laboratory's Physics Division Theoretical Seminar is set for 10 a.m. Thursday, September 3. The subject will be "Introduction to General Relativity: IV. Energy and Stability of the Universe." The speaker is M. A. Melvin, Florida State University.

The seminar will be held in Building 4500N's East Auditorium.

## WEDDINGS

Mr. and Mrs. James Lee Belcher

### BELCHER-WYLIE

Mr. and Mrs. James Lee Belcher are at home in Kingsport, Tennessee, after their July 10 wedding, which was solemnized in Lafayette, Georgia.

The bride, the former Miss Lynne Wylie, is the daughter of Mr. and Mrs. George W. Wylie, 107 Packer Road, Oak Ridge. (Her father is in Y-12's Beta Four Heavy Machine Shop.)

She is a 1964 graduate of Oak Ridge High School, where she was a majorette for three years, and co-captain of the squad her senior year. She also received the National Secretaries Association Award for typing.

The groom, the son of Mr. and Mrs. Alex Belcher, 324 Glascock Street, Alcoa, Tennessee, is a graduate of the University of Tennessee. He received his degree in transportation August 27.

Mr. Belcher recently became associated with the East Tennessee-Western North Carolina Transportation Company, Kingsport.

### Q-U-I-Z Was Silly, Meaningless Word!

One of the most commonly used words in the English language was originally a made-up nonsense syllable! The story goes that a man named Daly, manager of a Dublin playhouse, bet a friend within 24 hours he could have the whole town talking about a meaningless word. He won the wager — by chalking all over Dublin's walls the letters Q U I Z. Students the world over rue the day Mr. Daly came along!

Politics, notwithstanding, we take off our hats to Mrs. Miller, that wonderful, young committeewoman who appeared on the TV screens during the convention just past. Past 90 (she wouldn't reveal her exact age) Mrs. Miller refused to attend a Senior Citizens meeting . . . claimed she wasn't old enough. With that attitude and spirit she'll never make it.

Good for you, Mrs. Miller! Other than political arguments, scuttlebutte around the plant begins in

visiting relatives in West Tennessee. Ray also planned a fishing trip to Reelfoot Lake.

P. C. McRee and Mrs. McRee will be motoring to Ohio to spend a few days with daughter Julia. She is teaching school at New Orleans, Ohio this year.

Popularity depends on whether people like you wherever you go . . . or whenever you go.

### FABRICATION

Machine Maintenance maintains that H. N. Artis will vacation either in St. Petersburg, Florida or somewhere on the Gulf of Mexico . . . J. E. Brady will visit the big city of Cincinnati.

'Road testing' his new auto will be G. H. Shields, as he takes off for Washington, D. C., then down the East Coast of Florida . . . being a former Rambler owner, he was advised to take lots of money and an extra can of gasoline.

J. D. Stalsworth decided no place was quite like home for a restful vacation.

Tool Grinding grinds out news that P. R. Blackwell is going to Sanford, North Carolina . . . for a visit with his son . . . J. D. Goad to Myrtle Beach, South Carolina . . . T. J. Cogdill . . . Daytona Beach, Florida . . . C. J. O'Neal is visiting relatives down Texas way.

Other vacationers that didn't say 'where' are J. E. Bullen, A. J. Melton, J. F. Vance, and E. A. Crucey . . . J. J. Brock just 'snuck off' somewhere.

The Specimen Shop has H. C. Dickinson visiting Florida parts.

### PRODUCT ENGINEERING

Laura Lee Rose

Tool Engineering was in Engineering Division when Betty Rose left to adopt the little one shown above. No wonder she left . . . who wouldn't leave a job for a doll, like that, says our female scribe. Betty lives at 1224 Woodberry Drive, Knoxville, where little Laura is the king-boss, of course.

Tool Engineering also 'lows that Peggy Hardin is vacationing in Daytona Beach . . . R. K. Goosie and his family took off for the Smokies.

To Oklahoma for a short vacation was Wimpy Hilton . . . Ronnie Stenglein took off for two glorious weeks at the New York World's Fair.

It's happily reported that Ted Sizoo is recuperating nicely at home after recent surgery.

### UTILITIES AND SHIFT SUPERINTENDENTS

The PSS Office welcomes Bossman D. Rader and Mildred Scott aboard.

Sam Murphy vacationed last week in and around Knoxville.

Happy to be out of the hospital and home again is Jackie Ward . . . and 'tis happy we are, too.

Vacationing in parts unknown are N. M. Standridge, H. R. Cannon, D. G. Watson, and J. O. Loy.

See you soon.

### 'Medical Instrumentation' Topic Of Seminar

The Thermonuclear Division's seminar this week will be "Medical Instrumentation," led by C. C. Harris.

The seminar is set for Thursday, September 3, at 9 a.m. in the TD Conference Room, Building 9201-2.

Donna Sue Hancock

Here's a little doll that came to live at the D. F. and Betty Hancock household. She was born August 13, and weighed seven pounds, four ounces. Her proud papa is in the 9212 shops. Pretty, isn't she?

Ginger ale: Tastes like your foot feels when it has gone to sleep.

### MATERIALS & SERVICES

Microreproduction and Engineering Services has Georgia Rader way off for a couple of weeks at her home on Cherokee Lake . . . Roy West and the missus vacationed in Philadelphia.

Stores extends get well wishes to Maola Conner.

There's nothing beats making a long story short like having the boss walk in.

### TECHNICAL SERVICES

Radiation Safety has vacationers J. Sewell Brown at home in Oak Ridge . . . R. N. Whitehorn

THE SISTERS FOUR . . . the Winsteads and the Shoopmans have just released their first hit record, "You'd Better Not." Sitting in front is Evelyn Shoopman . . . and standing from left are Brenda Winstead, Mary Ann Shoopman, and Nancy Winstead. Brenda and Nancy are twin daughters of Frank Winstead, Project Engineering.

## Sisters Four Record New Song Hit 'You'd Better Not'

The Sisters Four . . . no Beatles they! First they are much too pretty (they use a comb), and secondly, they can sing.

If you listen to local disc jockey shows you've probably already heard their first record . . . "You'd Better Not." The Sisters Four (actually, there are two sets of sisters) consist of Brenda and Nancy Winstead, Mary Ann and Evelyn Shoopman. Brenda and Nancy are the 13-year-old twin daughters of Mr. and Mrs. Frank Winstead, Orchard Lane, Clinton. (Frank is in Project Engineering). The Shoopman girls are the daughters of Mr. and Mrs. C. E. Shoopman, also of Clinton.

The girls have been singing together for four and one-half years . . . which practically puts them back in the cradle-roll grouping. They formed the quartet for a 4-H project in Clinton. Since that time they have won talent contests throughout the state, appeared before civic groups, banquets, hootenannies, etc. They won plaudits during Oak Ridge's 20th birthday celebration last year, and also took top honors in the talent show at the Hill-Billy Homecoming held in Maryville.

About a year and a half ago, somebody from the Grand Ole Opry in Nashville heard the Sisters Four sing. He put Hermitage Records onto their trail, and off they went to Nashville for auditions. They immediately signed a recording contract with the Nashville disc company. (Incidentally, middle Tennessee is becoming the recording capitol of the world. Recent statistics reveal more and more phonograph records are being made in the area.)

"You'd Better Not" is being received exceptionally well. At a recent D. J. show in Chicago, it was called the most promising new record to hit the market. (And D.J.'s are the ones that make records, let's not kid ourselves!) The song is going well in the East, and sales are expected to pick up locally. Distributors are already placing the platter where teenagers can snap it up.

If you've delayed getting the Sisters Four debut record "you'd better not" delay it, for they're going fast.

Who knows, maybe the fairer sex in Tennessee has come up with something to off-set Elvis on the male side!

## Labor Day Is Official Holiday

Monday, September 7, is an official holiday for Y-12ers. Only those required for the protection and continuous operation of the plant will be required to work.

Labor Day has been an official American holiday since 1894 when Congress declared a special day to honor the working forces of this country. It was the first holiday officially recognized by the law-making group.

Unofficially, Labor Day closes the summer season . . . as pools and recreation facilities bolt down the hatches for winter.

The only thing kids wear out faster than shoes are teachers.

## Mason Named Trustee At Cornell University

Union Carbide Corporation President Birny Mason Jr. was recently elected a trustee of Cornell University. A graduate of Cornell, he was named to a five-year term as a member at large of the University.

## Linde's Expansion For 1963 Is Noted

In 1963, Union Carbide Corporation's Linde Division installed seven on-site plants for producing oxygen and nitrogen — with a new total capacity of 1900 tons a day. These plants were constructed to supply steel and chemical plant needs. Also, commitments were made to build an additional 5500 tons per day of on-site air-separation capacity. Included is the largest on-site plant in the world, which will serve the U. S. Steel Corporation's Gary, Indiana, Works. Also nine new customers were added to existing industrial gas pipeline distribution systems.

**TEERING OFF ON THE FIRST GREEN** at Gatlinburg above is an unknown golfer, as E. N. Rogers watches close by to see that its done properly. Y-12 golfers are beginning to register for the big All-Carbide tilt set for September 19, 20.

## Golfers Begin To Register For All-Carbide Golf Contest

Entries have started coming into Recreation for the All-Carbide Golf Tournament, slated for Saturday and Sunday, September 19 and 20. The event will take place at Wallace Hills Golf Course.

The first Y-12 entry in the three-plant competition is C. M. Cottrell's foursome, which also includes H. B. Presely, J. B. Branum and Jim Milligan. Others began streaming in after Cottrell's was registered.

### Hole-In-One Races

In addition to golf balls in the scratch and handicap counting (top six in each of the four divisions) . . . there will be hole-in-one contests on number six and 18.

All Oak Ridge employees of Union Carbide Corporation — Nuclear Division are eligible to enter the big event. All you need is a handicap. Those who have played in plant tournaments already have an established handicap. Those who have not may play 18 holes prior to the entry deadline (which is Tuesday, September 11) . . . have the score certified and turn it in. Handicaps are computed on the basis of 70 per cent of the difference between the golfer's average and Par 72.

### Slow Data Choice

Tee-off times will be established by the three Recreation Offices, but golfers should show a date preference . . . either Saturday or Sunday on the entry form. They will be notified by telephone when they are expected on the greens . . . and are asked to be there at least 15 minutes before their scheduled times.

Wallace Hills has been the scene of two Y-12 tournaments this summer, so duffers in the plant should be well acquainted with the traps and greens in that locale.

The attached coupon will be run one more time in next week's Bulletin.

Tee-off times will begin at 7 a.m. on the front nine only. Green fee at Wallace Hills is \$2.50.

Come on golfers, sign up that entry blank now . . . get your foursome organized and bring some of those golf balls back to Y-12.

There's one advantage of being in prison . . . at least you know where you are always.

Husband: First guaranteed annual wage.

### ENTRY FORM

## 1964 All-Carbide Golf Tournament

WALLACE HILLS GOLF COURSE  
September 19 & 20, 1964

Please enter the foursome, as listed below, in the All-Carbide Golf Tournament, subject to the rules governing this event. Preference: Saturday, September 19 ☐

Sunday, September 20 ☐

NAMES OF FOURSOME:

1. \_\_\_\_\_ 3. \_\_\_\_\_  
2. \_\_\_\_\_ 4. \_\_\_\_\_

Signature of Member entering this Foursome

Plant Phone No.

(Complete and send to: Recreation Dept., Bldg. 9704-2).

## Pitt Fires Perfect Score In Skeeting

### League Opens New Shooting Session

The first shoot in the Fall Skeet League was held August 23 at the Sportsmen's Club, Oak Ridge. The league's firing consists of eight rounds of skeet fired on alternate Sunday afternoons.

The next firing will be held this coming Sunday, September 6. Classes will be set up after the second round. Newcomers will be welcomed at the Skeet League to become acquainted with the fascinating sport.

Those interested should contact Fred Welfare, extension 7-8315.

Initial firings saw Summer champion Don Pitt fire a perfect score of 25. An even dozen skeeters turned out for the affair.

Initial standings follow:

Firer	Score
Don Pitt, Y-12	25
Fred Welfare, Y-12	24
M. C. Wiest, Y-12	24
Jack Case, Y-12	23
J. A. Swartout, ORNL	22
W. E. Brundage, ORNL	22
F. S. Patton, Y-12	20
R. H. McNabb, Y-12	19
R. A. Allstun, Y-12	19
H. D. Wills, ORNL	12
J. P. Cowen, Y-12	9

## Peons Lose Close Slo-Pitch Battle

### Y-12's Last Team Falls In Tournament

Y-12's Peons pulled into the Slo Pitch Tournament finals . . . only to lose 9 to 5 to the ORGDP Mets. The Peons had defeated the Mets in the semi-finals 9 to 4 . . . on a homer by Ernie Collins and a triple by Wright.

The double elimination tournament, however, required two defeats and the semi-final game was defeat number one for the hot Mets.

Earlier in the week, the Peons had downed the Gophers 10 to 8. Hit-wise the Gophers out-ran the Peons, picking up 15 to the Peons' 14.

### Beat Atoms 6 to 3

The Peons had also earlier defeated the Atoms 6 to 3, under the pitching of Ernie Collins.

The Atoms stopped the Teds Monday 6 to 5 on a winning homerun by Dary Daws.

Thus 'finis' was written on Slo Pitch play for the 1964 season . . . as the Peons marched through the week in sterling play, only to fall in the final game of the year.

### Same As 1963

This was a duplication almost to the tee of last year's tournament. Only that time the Peons defeated the Mets twice to take the tournament crown.

The Mets were regular season victors . . . and wear two crowns this summer, both tournament and league champions.

## Rifle League Calls Gunmen To Arms!

The Y-12 Indoor Rifle League starts Monday, September 10. Shooters will assemble at 7 p.m. at the Anderson County Gun Club, Clinton for initial firings. Guns will be available for newcomers (which are indeed welcome) and ammo will be

**Y-12 FATHERS** in the Solway, Karns, Ball Camp, Ridgedale area who want their 13, 14, and 15 year old sons in next summer's Babe Ruth League might be interested in the above team. The Karns team above has a 21 games won, four lost record. That's Mike Delaney, top left, son of E. J. Delaney, 9215 Rolling. Delaney says they practice at the Karns school until cold weather . . . so boys, come on out if you want in the Knox County Babe Ruth League next year.

**W.R. MALCOLM, RESEARCH SERVICES**, successfully coached the above boys to the championship of the West Haven Buddy League with a season record of nine wins, one loss. Members of the team are, front row from left, Mike Crigger, Ronald Coleman, Mike Perkins, Charles Schultz, Steve Hamilton (son of L. C. Hamilton, Chemical, Beta Two), Danny Curry, Ronnie Malcolm, son of the coach; and Rick Towe. Back row are Eugene Perkins, assistant manager; Roy Cockran, Johnny Coleman, Donnie Towe, Dennis Nickle, Randy Smith, son of Guy Smith, Metals Development; Phil Underwood, Mike Mabe and Coach W. R. Malcolm.

## Y-12 Pistol League Will Start Sunday

The autumn Y-12 Pistol League will begin firing on Sunday, September 9, at the Anderson County Gun Club, Clinton.

There will be a short organizational meeting at 7:30 p.m. All pistol shooters and those interested in learning the art of pistolering are invited to participate.

This is a precise target shooting competition and has nothing to do with the current 'fast-draw' fad.

Each shooter must furnish his own firearm and ammunition.

Additional information may be obtained from W. A. Less, extension 7507, or at his home phone Clinton 457-2819.

available at the Club at a nominal cost. Everyone is welcomed. Additional information may be obtained from D. L. DeWalt, extension 7705.

**HELP SMOKEY BEAR PREVENT FOREST FIRES IN THE SOUTH!**

## Ralph Levey Grabs Top Spot In Tennis Play

Ralph Levey leads the Tennis League this week with four wins . . . no losses. He clipped Don Legacy 6-3, 6-4. Sam Campbell handed Bill Hackett his first defeat 6-1, 6-3.

Other matches saw Bob Bass over Roy Huddleston 6-4, 6-4; and Campbell King took Huddleston also 6-4, 6-2.

Bob Bass defeated Al Fischer 6-4, 7-5.

Ed Del Grande downed Roy Huddleston 1-6, 6-2, 6-3.

League standings follow:

Player	W	L
Ralph Levey	4	0
Bob Bass	3	0
Bill Akers	2	0
D. W. Hackett	3	1
Sam Campbell	3	1
Ed Del Grande	1	1
Campbell King	3	2
John Pridgeon	0	1
Al Fischer	0	2
John Jones	0	2
Dick Huber	0	2
Don Legacy	0	3
Roy Huddleston	0	4

Rider wanted or member of car pool from West Haven, via Oak Ridge Highway, to East, North or Central Portal, straight day. Fred Walker, plant phone 7-8063, home phone Knoxville 523-9672.

## Joyce Coling Back From Peace Corps

Two years ago, the Bulletin wrote a detailed story of Y-12's first candidate in the Peace Corps . . . Joyce Coling, daughter of Mr. and Mrs. Leo E. Coling (he's in Y-12's General Machine Shop.)

Time does fly. In a recent Knoxville News-Sentinel article, Joyce was interviewed and gave a beautiful, moving narrative of her experiences in South America. She had returned to the Karns home for a visit with her folks, after her two years in the Corps.

Like the Peace Corps? Because of her eager willingness to identify herself with her new friends, Joyce was asked to return to Brazil. She will go to a new community to apply her gifts of friendliness, love of people, and ability to teach. Well done, Joyce . . . and good luck, again!

A miracle drug is any medicine you can get kids to take without screaming.

A full moon reflects seven times the light that a half moon does.

## Jenkins Son Is Off To Vet School

**Anthony Lamarr Jenkins**

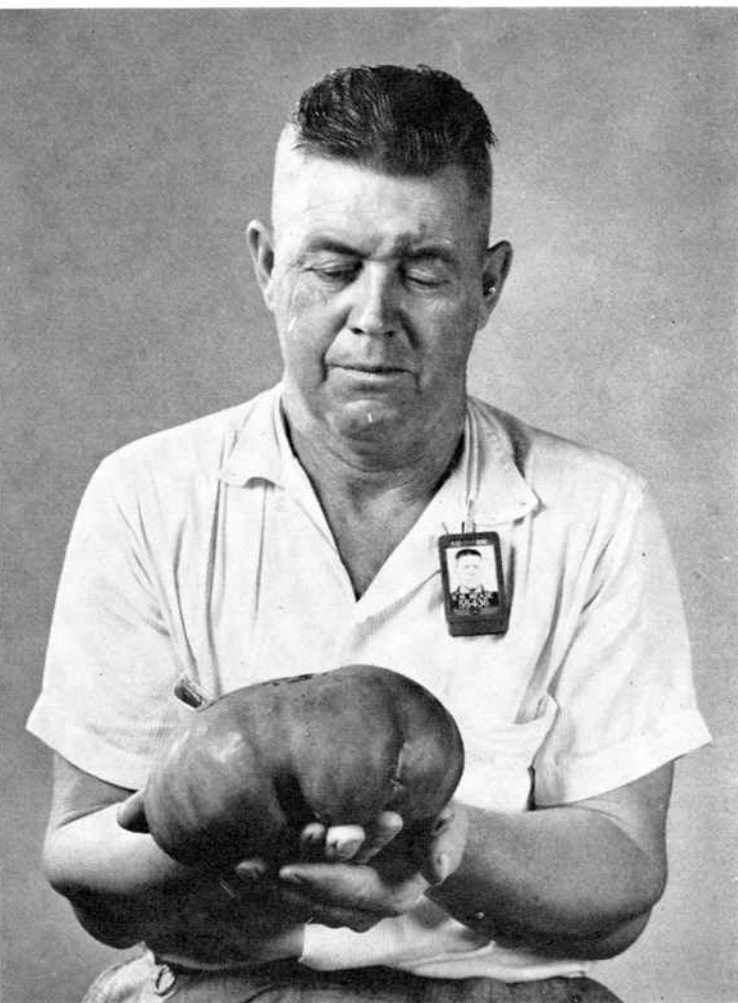

The H. M. Jenkins family, Route 3, Gardner Road, Powell, will see their son graduate from the University of Tennessee, Thursday, August 27. Anthony Jenkins will receive his BS degree in Animal Husbandry.

Young Jenkins will enter the pre-veterinary school at Auburn, Alabama in September. He is married to the former Henrietta Farmer of Maryville.

The graduate's father is in Y-12's General Foundry.

**THE HANDSOME FAMILY** of Mr. and Mrs. W. L. Brewer was honored recently when Mrs. Brewer was selected as Roane County's "Mother of the Year." Seated are Mrs. Cleon Fillmore, Madison, Tennessee; Mrs. Dot Mayton, Harriman; Mrs. Brewer, Mr. Brewer; and Mrs. Alma Smith, Harriman. Standing are Bill, Metawan, New Jersey; Obie, Atlanta; Arthur, Knoxville, in Y-12's Tool Engineering; young Jerry (now deceased); Gene, Harriman; and Jimmy of El Paso, Texas. A total of 23 equally-as-handsome grandchildren grace the boards at the Brewer family gatherings. "I want to see 50 grandchildren before I die," Mrs. Brewer declared. "I love my grandchildren the same as I do my own children." Already one great grandchild has been added to the roll-call for the mother-of-the-year in Roane.

**PRACTICALLY EVERYONE** IN Receiving, and some in Stores, got a piece of the big tomato that R. M. Meade brought to work recently. The big vegetable weighed three pounds and two ounces. (Meade confessed later that he didn't grow it . . . but his daughter Betty (Mrs. John) Franzreb did at their Paint Rock Ferry home). Meade did say, however, he gave technical advice on how to grow the monster!

## Longest Mountain Is Not On Earth!!!

The longest mountain range on earth . . . is under water! The Mid-Atlantic Ridge stretches some 10,000 miles from Iceland almost to the Antarctic Circle. Pico Island, the highest peak in the Ridge rises some 27,000 feet from the ocean floor to a height of 7,615 feet above sea level.

## Playhouse Plans Opening Comedy

For the 22nd time, the Oak Ridge Playhouse is about to begin a new season. The play-makers announce tryouts for the opening season. The first fall show will be "Sunday in New York." Try-outs are scheduled at the Oak Ridge Playhouse in Jackson Square next Tuesday, September 8, at 8 p.m. Director Paul Ebert will put the show into rehearsal immediately after the parts have been assigned, and the play will open in mid-October.

"Sunday in New York" requires four men and two women; the men in the 25-35 age range, one of the girls is about 22, the other anywhere from 20 to 40 (which should include all women!)

Director Ebert says he's especially hopeful of seeing new talent at first tryouts, and urges newcomers to try for an on-stage role, or to volunteer for backstage work. Experience is not necessary.

If it is impossible to make the next Tuesday date, you may arrange for an audition at a more convenient time by telephoning Oak Ridge 483-6193.

## Cancer Killer Is Little Known Irony

America's biggest killer cancer is not lung malignancy, but a little talked about killer that takes 42,000 a year in the United States. The bitter irony of cancer of the rectum and colon is that more than half of these deaths could have been prevented by early diagnosis and early treatment.

A football field is one place it pays to kick when things aren't going too well.
